

GLP Training's Social Value Statement

Our Commitment to Community and Sustainability

At GLP Training, we are dedicated to creating substantial social value through our educational programs and community initiatives. We believe in empowering individuals and enriching communities, particularly in underserved areas, by providing accessible and impactful learning opportunities.

Enhancing Prospects through Apprenticeships

We are committed to enhancing the career prospects of people from deprived areas. By offering targeted apprenticeships, we open doors for individuals to gain valuable skills and qualifications that lead to meaningful employment. These programs are designed not only to help individuals succeed but also to foster economic growth within their communities.

Making Learning Accessible for All

GLP Training is dedicated to removing barriers to education. We strive to make learning accessible to everyone, regardless of their background or circumstances. This includes offering flexible learning options, online resources, and support services to ensure that all students have the opportunity to succeed.

Commitment to Sustainability

As outlined in our net zero statement, we are committed to sustainable practices across all aspects of our operations. We aim to lead by example in the fight against climate change, ensuring that our commitment to the environment is reflected in every action we take.

Supporting Local Sports and Women in Sports

We are proud to sponsor local sports clubs, including Worcester City Women and Worcestershire County Cricket Club. These partnerships reflect our commitment to promoting health, wellness, and community cohesion. By supporting women in football, we aim to foster equality and provide opportunities for women to thrive in all sports disciplines.

Community Engagement and Development

GLP Training actively engages with local communities to support a wide range of initiatives beyond sports and education. This includes volunteering, local charity support, and participating in community development projects that aim to improve quality of life for all residents.

Investing in the Future

We believe in the power of education to transform lives. By investing in state-of-the-art learning facilities and innovative teaching methods, we are setting a foundation for continuous improvement and long-lasting impact.

Conclusion

At GLP Training, we are passionate about delivering social value to our students and communities. Our approach goes beyond educational services, embracing a broader mission of empowerment, inclusivity, and sustainability. We are committed to making a positive impact and contributing to a more equitable and sustainable future.
